**STAY SAFE.
BE PREPARED.
SAVE ENERGY.**

A SMART START *to savings*

Saving energy can help you save money. Stay cool with these energy-saving tips:

- **Caulk and add weather-stripping** to any seams and cracks. If your insulation is lacking, now may be a good time to upgrade or replace it and experience decreased energy costs year-round.
- **Change the direction of your ceiling fans** to rotate counterclockwise in the summer to push cooler air down.
- **Install a smart thermostat** that can adjust heating and cooling automatically for optimal efficiency and performance.
- **Clean or replace the filter** on your air conditioner to keep it running efficiently.

For more tips on staying cool and saving energy this summer, visit blackhillsenergy.com/ready.

stay safe • be prepared • save energy

SUMMER *safety and preparedness*

We encourage you to prepare for potential severe weather events and emergencies that could impact your service.

- **Prepare an emergency kit** so that you have flashlights, a battery-powered radio and extra batteries ready to go.
- **Use your generator** safely.
- **After storms, beware of fallen debris** and downed power lines — assume all downed lines are energized.
- **Create an emergency action plan** with your family.

For more safety ideas visit blackhillsenergy.com/safety.
